

# User Study – Colab Instructions

---

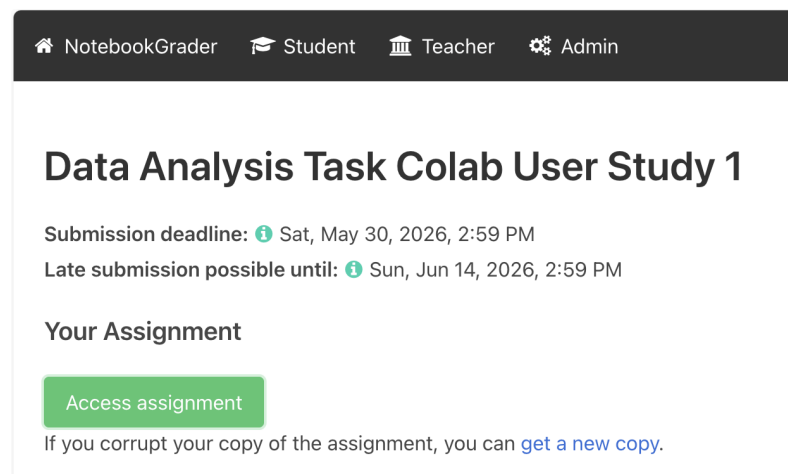

## Accessing the User Study

- Click on this URL:  
<https://notebookgrader.com/invite/5c5034429361c39ede6b574e5ab40c8d9d8dcb80>
- Click on the name of the user study

The screenshot shows the top navigation bar with icons for NotebookGrader, Student, Teacher, and Admin. Below the navigation bar, the word "Homework" is displayed with an information icon. A search bar is present below "Homework". Under the "Assignment" section, a single assignment titled "Data Analysis Task Colab User Study 1" is listed.

- Click on Access Assignment

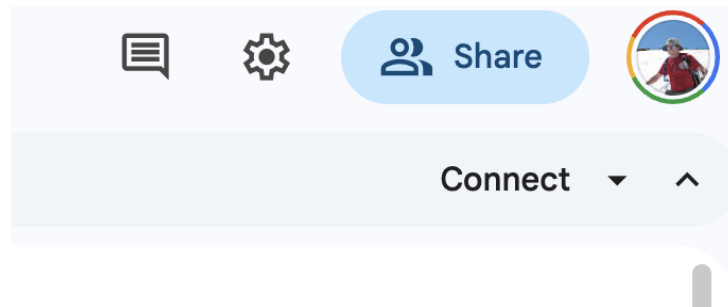

The screenshot shows the top navigation bar with icons for NotebookGrader, Student, Teacher, and Admin. Below the navigation bar, the title "Data Analysis Task Colab User Study 1" is displayed. Underneath, the submission deadline is "Sat, May 30, 2026, 2:59 PM" and the late submission possible until is "Sun, Jun 14, 2026, 2:59 PM". The section "Your Assignment" contains a green button labeled "Access assignment". Below the button, a note states: "If you corrupt your copy of the assignment, you can [get a new copy](#)."

Do not worry about a grade, there is nothing to be graded.

# Using Colab

- **Connect to a Runtime (you don't need a GPU!)**

- **Use AI to generate code**

```
[ ] [▶] 1 Start coding or generate with AI.
```

**Accept the changes, and off you go!**

**Please use the Gemini 2.5 Flash model.**

## Submitting Your Work

You do not need to do anything. Your notebook is shared with the instructor. Please work on it and not on a copy!
